Maze-Runner

In this game you will be trapped in a maze,
You have to complete 4-levels of the maze to escape.

Uses of mazes!

For children, completing **mazes** is a great way to boost their problem solving skills.
Solving **mazes** also boosts their patience and persistence and teaches them about the rewards of work.
Mazes can also help improve the child's cognitive thought processes.
Solving **mazes** are wonderful for improving hand-eye coordination.

What is called a perfect maze?

A so called '**perfect**' **maze** has every path connected to every other path, so there are no unreachable areas.
Also, there are no path loops or isolated walls. There is always one unique path between any two points in the **maze**.

How did get this idea?

when I was thinking of making an app for the silicon valley challenge, I was searching for,"how to make games?"
 Then I suddenly got an idea of making a maze.Then I was searching the web on how to create a maze and then
I found out about "UNITY" and created a maze on my on in unity.
